Patient Comments

"I should be in a wheelchair now, but at 75 years old I have more energy than when I was 40!"

"My anti-depressants made me feel numb, whereas now I feel really alive and able to cope with my life"

"Very quick response to the remedy, the impetigo dried up that day – amazing!"

"He has settled down in school now and making new friends"

"My skin is so much better, I tried everything and nothing else had helped"

"The kits are so useful, I use them on all the family"

"It was so nice to be able to talk about all my health problems, I really felt listened to, I feel like I have had a full MOT"

The Natural Alternative

HOMEOPATHY

Energy Medicine for the 21st Century

Jane Glover
SDSHom RSHom

Jane trained at The South Downs School of Homeopathy, the four year training covered modules as varied as anatomy, physiology and pathology along with the principles of homeopathic prescribing. Jane is registered with the Society of Homeopaths.

What is homeopathy?

Holistic – Homeopathy addresses all your symptoms, mental, emotional and physical.

We look at each patient individually as people respond differently to illness. This means that different people will need a different remedy for the same illness.

We take this into account to select the most suitable homeopathic remedy for you.

Natural – Homeopathic remedies are environmentally friendly, not tested on animals, non toxic, non addictive and yet highly effective in treating even chronic disease. They are even safe to use alongside conventional medicine.

Suitable for all – Homeopathic remedies are suitable for everyone, babies, children, adults, during pregnancy and for the elderly.

To Balance your Mind, Body and Spirit

Your treatment

Please allow up to one hour for your first appointment, and up to half an hour for subsequent appointments.

I will ask about all your symptoms, mentally, emotionally and physically, how your illness affects you personally, your lifestyle and medical history.

The amount of treatment required will depend upon the severity of your illness and amount of time you have suffered with it. However, most patients experience significant reduction in symptoms after the first treatment, and even chronic conditions can respond within three treatments.

The NHS homeopathic hospital study showed significant improvements in over 70% of patients treated with homeopathy. Over 6,500 patients took part in the study, most had tried conventional treatment first without success.

Newsletter

Jane produces a quarterly newsletter for her patients, (past, present and future), this is free of charge, please phone, email or come along to the clinic for a copy.
